

Year 2 Take Home Tasks

Flying High

Our take home tasks this term are focusing on humanities – history, geography, PSHRE and RE.

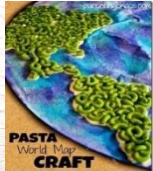

Please complete at least one of the following take home tasks and bring this into school before Friday 10th March.

Remember to work with your family members to create your take home task.

Geographers

As *geographers*, create a globe or a map of the world using materials of your choice! This must include labelling of the 7 continents, 5 oceans and the United Kingdom.

You could even add a real flight path to your map that you have researched and include the names of the countries it stops at.

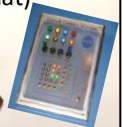

Historians

As *historians*, research an amazing aviator! This could be someone we learn about at school or someone who has inspired you by breaking a world record! You need to present your interesting facts clearly and creatively by making a PowerPoint, creating a news report video, making a leaflet or a poster.

OR

Create an aviation artefact. This could be something that is used by a pilot such as a clothing accessory (goggles, scarf, hat) or something used to fly through the ages (compass, radar/control panel).

PSHRE

As *well-being warriors*, create a poster to encourage resilience and perseverance. We know that the Wright Brothers never gave up on their dream to invent the first ever flying machine and in our classes, we have discussed the meaning of the word 'resilience' and how important it is.

You could include the following questions and answers:

What does 'resilience' mean?

Why is it important?

How can you be resilient? Give examples.

Quiz questions.

Did you know facts.

Theologists

As *theologists*, create a prayer.

As inventors began to test their magnificent flying machines, many of them lost their lives for the dream of flying. Write a prayer for all the aviators to keep them safe in the skies.

OR

Create a lucky artefact or a small prayer book which would bring the pilots luck in their adventures and keep them safe as they embarked on their record breaking flights.
